

Disinfectant Concentrations and Contact Times for Products Effective against Novel Coronavirus SARS-CoV-2

This table provides disinfectant concentrations and contact times for EPA's List N, which covers antimicrobial products effective against SARS-CoV-2 but does not specify disinfectant concentrations. Our list will help you ensure you're using an effective disinfectant at a sufficient concentration and contact time to kill SARS-CoV-2.

This table accompanies ECRI's article "Disinfectant Concentrations and Contact Times for EPA's List of Products Effective against Novel Coronavirus SARS-CoV-2, the Cause of COVID-19," available at <http://ly.ecri.org/epalist>. It was last updated on May 13, 2020.
