Prevent Surgical Fires
Call (610) 825-6000, ext. 5473 or email accidents@ecri.org.
ECRI Institute estimates around 90-100 surgical fires occur each year in the United States. These fires can have devastating consequences for patients, staff, and the facility.

Turn to ECRI Institute’s world-class surgical fire prevention experts to learn how to prevent and extinguish surgical fires, and establish a strategy for investigating these occurrences.

Getting to the bottom of it. It’s what we do best.
