## About ECRI

For 45 years, ECRI Institute, a nonprofit organization, has been dedicated to bringing the discipline of applied scientific research to discover which medical procedures, devices, drugs, and processes are best, all to enable you to improve patient care.

## Memberships & Services

Join more than 5,000 healthcare organizations worldwide who deliver safer and more cost-effective patient care because they rely on ECRI Institute's independent, evidence-based research and informed judgment.

# Healthcare Risk Control

## Member Benefits

Healthcare Risk Control is the online resource for evidence-based healthcare tools, guidance, and strategies to help you do your job, save time, and reduce claims.

### Comprehensive

Unbiased, in-depth guidance articles, self-assessment tools, policies and procedures to tailor to your needs, ready-to-use education and training tools, standards and best practices, weekly news, and more

### Reliable

Evidence-based research backed by more than 400 experts representing many disciplines (e.g., risk management, quality improvement, patient safety, legal, clinical engineering), who answer member questions and keep resources up to date

### Practical

Strategies and best practices that make your job easier, so you have time to make patient care safer

**ECRI**Institute  
The Discipline of Science. The Integrity of Independence.

## GUIDANCE ARTICLES

In-depth discussions of risk, safety, and compliance topics; action recommendations, lists of resources, and supplementary articles.

[View Guidance Articles >](#)

## SELF-ASSESSMENT QUESTIONNAIRES (SAQS)

Evaluate current practices and risks and plan for the future. Assess risks and safety related to particular services, units, and topics.

[View Self-Assessment Questionnaires >](#)

## TRAINING PROGRAMS

Ready-to-use training packets include slide presentations that can be adapted to meet facility needs and include facility-specific information and online self-paced training on key topics. New in 2014, some courses can be downloaded for use in your learning management system. [Learn more.](#)

[View Training Programs >](#)

## WEBINARS

Hear ECRI Institute experts and others discuss the latest risk management topics, from social media to drug shortages to integrating quality and risk management.

[View Archived Webinars >](#)

## THE RISK MANAGEMENT REPORTER

Keep abreast of developments in your field. The *Reporter*, posted every other month on the *HRC* Members' website, reviews important news in risk management and patient safety.

[View the current issue >](#)

## HRC ALERTS

A weekly e-newsletter with up-to-the-minute information on developments in risk management and patient safety, *HRC* recommendations, and links to *HRC* resources.

*HRC Alerts* will be e-mailed to you each week. Current and archived news are also available on the *HRC* members' website.

[View HRC Alerts >](#)

## SAMPLE POLICIES AND TOOLS

See how other facilities have addressed challenges and access expert guidance from regulatory, accrediting, and patient safety agencies. *HRC* offers an online library of more than 450 sample policies and tools.

[View Sample Policies and Tools >](#)

## TECHNOLOGY OVERVIEWS

Better understand your facility's medical devices. These articles, based on information from ECRI Institute's *Healthcare Product Comparison System*, provide information on individual healthcare technologies, including the technology's purpose, principles of operation, reported problems, and purchase considerations.
